AIR DISPERSION IN RESTAURANTS, CAFETERIAS, BANQUET HALLS

— How to create the ideal HVAC solution for guests and visitors

smart air
solutions.

smart air
solutions.

Comfort, ambience achieved through even airflow, fabric ducting

In addition to tasty foods, restaurant, cafeteria and banquet patrons expect comfortable air quality in an aesthetically pleasing environment. We'll leave the first part to the chefs but rest assured that FabricAir has the special ingredients to ensure optimum customer comfort where our virtually noiseless ducts integrate seamlessly into the overall aesthetics.

EVEN AIR DISTRIBUTION

- Distributes air evenly throughout the facility.

EASY INSTALLATION

- As simple as it gets; no heavy machinery or special tools required.

LONG LIFESPAN

- Proven durability for decades to come.

AESTHETIC SOLUTION

- A variety of duct profiles and standard colors and custom printing compliment any setting.

VIRTUALLY NOISELESS

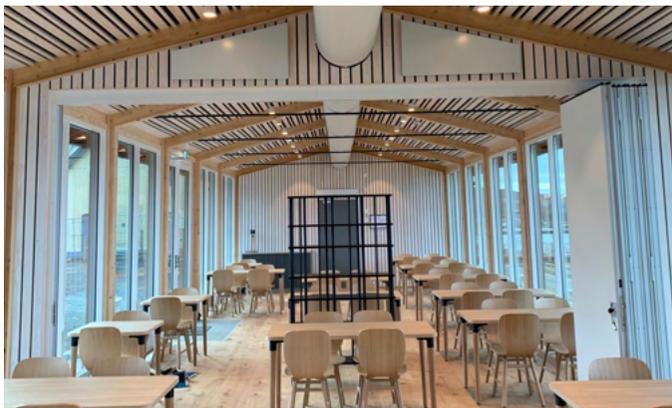

- Does not create additional unpleasant sounds.

HIGH INDOOR AIR QUALITY

- Creates a perfect and draft-free environment for all employees and patrons.
